

Samsung
GALAXY S5

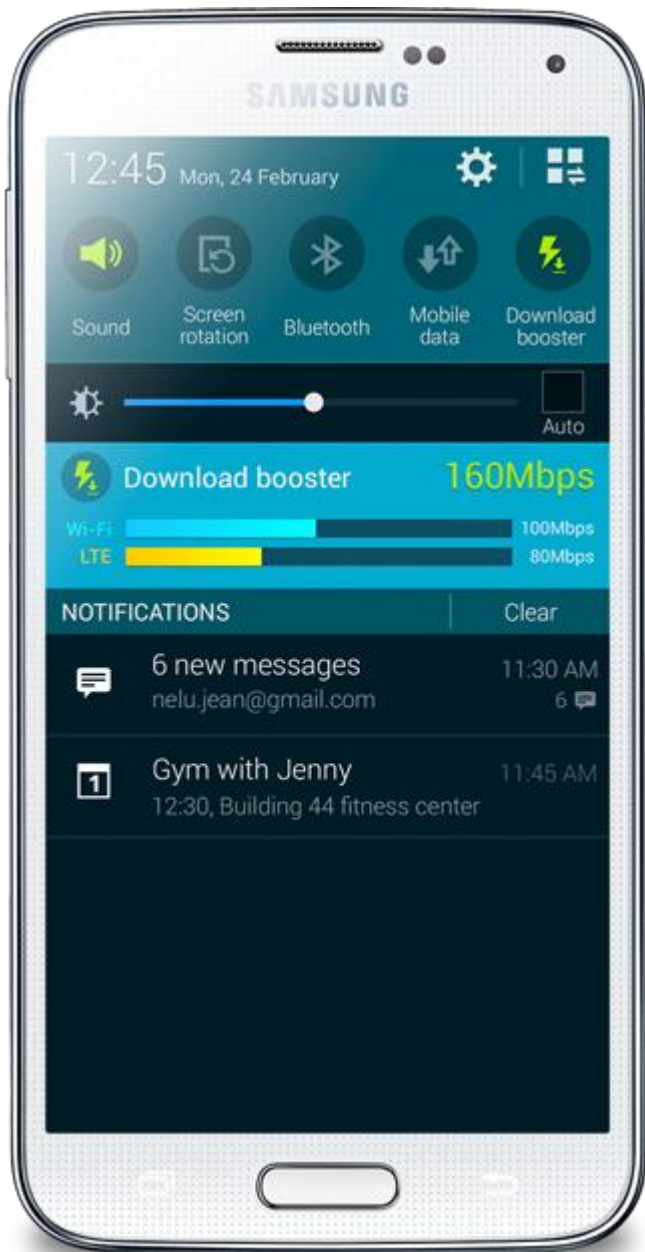

Do not hesitate to pull the trigger and keep the action exactly the right time! The faster autofocus of the Galaxy S5 allows you to take focused shots of moving subjects and action, so you will not miss any single moment more.

For brighter and more vivid shots for photos and videos turn in strong light or when the subject is in shadow is an HDR. Preview while you take the picture in real time alive and well in natural light and color display.

Download Booster

More speed with LTE and Wi-Fi together
The Download Booster technology uses LTE and Wi-Fi at the same time and thus achieves an undisputed networking experience!

If you need fast times downloading a file, check together LTE and Wi-Fi and experience the approximately 80 - 90% higher network speed of the combined LTE and Wi-Fi connection.

* The LTE and Wi-Fi speed on display are an illustration. The speed of the Download Boosters may vary depending on the network environment and the location.
