# What's new with Windows 8?

## Personalized.
Make your Start screen your personalized home for the things you care about.Organize and customize it the way you want.

## Connected.
Now everything is in one place and easier to share. Integrate your online favorites - Facebook, Flickr, Hotmail, etc. - with content from your PC , such as photos and contacts.

## Touchable.
The new Windows 8 has been redesigned for touch but still works great with a mouse and keyboard.

## Windows in action.

### Make it yours.
The Windows 8 Start screen is your personalized home for the things you care about and want to keep an eye on. Organize it, customize it and make it yours.

### Work hard, play hard.
Windows tablets run Word, PowerPoint, Excel, and OneNote, so you can mix a little work with episodes of your favorite shows.

### Not your average apps.
With thousands of apps to choose from, there's something for everyone. Once you buy an app from the Windows Store, it's yours to use on up to five Windows 8 PCs or tablets.

## More ways to connect.

### Your news, your way.
Windows 8 Live Tiles on your Start screen provide real-time updates from your Facebook, Twitter, and email accounts.

### Stay connected
Everything is in one place and easier to share when you integrate your online favorites like Facebook with content from your PC.

### Apps all around.
The Windows Store has thousands of apps to choose from, so there's something for everyone.

### Work Hard, play hard.
Windows tablets run Word, PowerPoint, and more, so you can sneak in a little work between watching your favorite shows.

### Room for everyone.
