

Linksys LKG-6100 Network Adapter - PCI, 10/100/1000 Gigabit

Linksys LKG-6100 Network Adapter

The Linksys LKG-6100 is a 10/100/1000Mbps Gigabit over Copper PCI adapter for both servers and workstations. Seamlessly migrate systems with 10/100Mbps to Gigabit Ethernet to eliminate network bottlenecks and increase productivity.

Gigabit Ethernet uses existing Category-5 cabling while providing you with 10/100/1000Mbps network speed auto-sensing and full/half duplex auto-negotiation. The Linksys LKG-6100 is an inexpensive alternative of fiber-optic. No need to replace your network cables to expensive fiber-optics cables.

The Linksys LKG-6100 features auto-sensing, full/half duplex auto-negotiation, Auto MDI-II, and MDI-X.

Features

- PCI 10/100/1000 Gigabit Ethernet Adapter
- Plug-and-Play
- High-Speed Performance
- IEEE 802.3x Flow Control Supported
- Diagnostic LEDs for Easy Troubleshooting
- Works with Most Major Operating Systems
- Full Duplex Capability at Speed up to 2000 Mbps
- Connects to 10Mbps, 100Mbps, and 1000Mbps Ethernet Networks
- Automatically Adjusts to Half or Full Duplex

Minimum System Requirements

- Microsoft Windows Vista/7
- Microsoft Windows XP
- Microsoft Windows 98
- Microsoft Windows Me
- Microsoft Windows 2000

- Microsoft Windows NT 4.0
- Novell NetWare Server 5.x
- Novell Netware Server 6.x
- Linux driver for kernel 2.2.x
- Linux driver for kernel 2.4.x
- Free BSD
- Mac OS 9.x and 10.x

What's Included

- 1X Linksys Gigabit PCI Card
- 1X Driver
- 1X User's Manual
