

Model: **12000 mAh Solar Charger for Laptop & Tablet PC**

Solar charger

GP-ET007 Solar lapop/mobile charger

Battery capacity: Lithium polymer, 12000mAh

Adapter Input Voltage: DC16-24V

Output voltage: 2/ 8.4/ 12.6/ 16.8/19V(optional)

Output current: 1A/5V, 2A/9-12V, 4A/16-19V

Charging time for the laptop: About 3-6 hours(depand on brand and model of laptop)

Charging time for the Lithium polymer battery inside using the solar panel: 15-20 hours

Charging time for the Lithium polymer battery inside using AC: 3-4 hours

Flashlight: 1 high light Ø 10mm white LED

Material: ABS, fireproof material

Color: Black

Scope for charging: Laptop, any mobile phone, digitalcamera, MP3, MP4, PDA, PSP, GPS, DV etc (USB and 13 mini connected pins)

Indication: Charging and discharging state

Fuction: Stability, intelligence, portability, reliabity, usability, environmental protection

Package:	Gift box
Product Size:	162*98*26mm
N. W:	250g
G. W:	16kg
Pcs/CTN:	8pcs/ctn
Carton Size:	500*340*230mm
